Customer No. : 23911  
  
Title : Superconducting Wire Rod and Method of Producing  
The Same

**RESPONSE TO RESTRICTION REQUIREMENT**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In response to the Restriction Requirement mailed on July 13, 2005, applicants elect, with traverse, Group I, Claims 1-6, for examination on the merits.

The Office Action based the restriction requirement on the assertion that the claimed product can be made with another materially different process, or the claimed process can be used to make a materially different product. However, there is no showing in the Office Action how the claimed product can otherwise be made, or what other product can be made with the claimed process. In fact, it is submitted that the claimed product cannot be made with another materially different process, and the claimed process cannot be used to make another materially different product. Accordingly, applicants respectfully submit that the restriction requirement is improper and should be withdrawn.

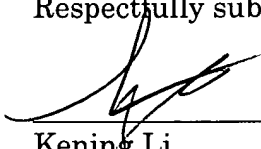

Serial No. 10/642,643  
July 26, 2005  
Reply to Office Action

If there are any questions regarding this response or the application in general, a telephone call to the undersigned would be appreciated since this should expedite the prosecution of the application for all concerned.

If necessary to effect a timely response, this paper should be considered as a petition for an Extension of Time sufficient to effect a timely response, and please charge any deficiency in fees or credit any overpayments to Deposit Account No. 05-1323 (CAM #056203.52693US).

Respectfully submitted,

July 26, 2005
